## Amendments to the Claims:

This listing of claims will replace all prior versions, and listings of claims in the application:

## **Listing of Claims:**

1	Claim 1-19 (canceled)
1	20. (new) A topical mousse composition, the mousse composition comprising:
2	(a) an occlusive agent;
3	(b) an aqueous solvent; and
4	(c) an organic cosolvent;
5	wherein the occlusive agent is present in an amount sufficient to form an
6	occlusive layer on the skin.
1	21. (new) The topical mousse composition according to claim 20, wherein the
2	occlusive agent comprises petrolatum.
1	22. (new) The topical mousse composition according to claim 21, wherein the
2	occlusive agent further comprises a mineral oil and a long chain acid.
1	. 23. (new) The topical mousse composition according to claim 20, wherein the
2	occlusive agent is selected from the group consisting of a mineral oil and grease, a long chain
3	acid, an animal fat and grease, a vegetable fat and grease, and a water insoluble polymer.
1	24. (new) The topical mousse composition according to claim 20 or 21, wherein
2	the occlusive agent is present in an amount of approximately 55% by weight or less, based on the
3	total weight of the composition.
1	25. (new) The topical mousse composition according to claim 24, wherein the
2	occlusive agent is present in an amount of approximately 10 to 50% by weight, based on the total
3	weight of the composition.

3

based on the total weight of the composition.

26. (new) The topical mousse composition according to claim 20, further 1 comprising an effective amount of an emulsifier component. 2 27. (new) The topical mousse composition according to claim 26, wherein the 1 emulsifier component is present in an amount of from approximately 1% to 15% by weight, 2 based on the total weight of the composition. 3 28. (new) The topical mousse composition according to claim 26, wherein the 1 emulsifier component is present in an amount of from approximately 2% to 5% by weight, based 2 on the total weight of the composition. 3 29. (new) The topical mousse composition according to claim 26, wherein the 1 emulsifier component is selected from the group consisting of a non-ionic surfactant, a cationic 2 surfactant, an anionic surfactant, a fatty alcohol, a fatty acid, and fatty acid salts thereof. 3 30. (new) The topical mousse composition according to claim 29, wherein the 1 emulsifier component comprises a mixture of a sorbitan ester and a polyoxyethylene fatty 2 3 alcohol ether. 31. (new) The topical mousse composition according to claim 30, wherein the 1 2 emulsifier component further comprises a fatty alcohol, a fatty acid or a fatty acid salt. 32. (new) The topical mousse composition according to claim 20, wherein the 1 aqueous solvent is present in an amount of approximately 25 to 95% by weight, based on the 2 3 total weight of the composition. 33. (new) The topical mousse composition according to claim 20, wherein the 1 2 organic cosolvent is present in an amount of approximately 0.25% by weight to 50% by weight,

4

1

2

- 1 34. (new) The topical mousse composition according to claim 20, wherein the organic cosolvent is present in an amount of approximately 0.5% by weight to 2.0% by weight, 2 3 based on the total weight of the composition. 1 35. (new) The topical mousse composition according to claim 33, wherein the 2 organic cosolvent comprises an alkyl benzoate. 36. (new) The topical mousse composition according to claim 33, wherein the 1 2 organic cosolvent is selected from the group consisting of an alkyl ether, an aromatic ether and a 3 cyclic ether. 37. (new) The topical mousse composition according to claim 20, further 1 2 comprising an effective amount of an aerosol propellant. 38. (new) The topical mousse composition according to claim 37, wherein the 1 2 aerosol propellant is a hydrocarbon and is present in an amount of approximately 2.5 to 20% by 3 weight, based on the total weight of the composition. 39. (new) The topical mousse composition according to claim 20, further 1 2 comprising a water-insoluble pharmaceutically active ingredient. 1 40. (new) The topical mousse composition according to claim 39, wherein said water-insoluble pharmaceutically active ingredient is selected form the group consisting of 2 3 an analgesic, an antifungal, an antibacterial, an anesthetic, an antiviral, an antipruritic, an
  - 41. (new) The topical mousse composition according to claim 40, wherein said water-insoluble pharmaceutically active ingredient is an anti-inflammatory.

antihistamine, a xanthine, a sex hormone, an anti-inflammatory, and a corticosteroid.

1 42. (new) The topical mousse composition according to claim 39, wherein the 2 pharmaceutically active ingredient is insoluble in both water and the occlusive agent.

1	43. (new) The topical mousse composition according to claim 39, wherein the
2	pharmaceutically active ingredient is present in an amount of from approximately 0.005% by
3	weight to approximately 10% by weight, based on the total weight of the composition.
1	44. (new) The topical mousse composition according to claim 39, wherein the
2	pharmaceutically active ingredient is present in an amount of from approximately 0.05% by
3	weight to approximately 1% by weight, based on the total weight of the composition.
1	45. (new) A topical mousse composition, the mousse composition
2	comprising:
3	(a) petrolatum in an amount of approximately 10 to 50% by weight, based on the
4	total weight of the composition;
5	(b) an aqueous solvent; and
6	(c) an organic cosolvent.
1	46. (new) The topical mousse composition according to claim 45, further
2	comprising an effective amount of an emulsifier component.
1	47. (new) The topical mousse composition according to claim 45, further
2	comprising a water-insoluble pharmaceutically active ingredient.
1	48. (new) The topical mousse composition according to claim 45, wherein
2	said water-insoluble pharmaceutically active ingredient is selected form the group consisting of
3	an analgesic, an antifungal, an antibacterial, an anesthetic, an antiviral, an antipruritic, an
4	antihistamine, xanthine, a sex hormone, an anti-inflammatory, and a corticosteroid.
1	49. (new) The topical mousse composition according to claim 48, wherein
2	said water-insoluble pharmaceutically active ingredient is an anti-inflammatory.
1	50 (new) A dispenser, the dispenser comprising:
2	a topical mousse composition comprising:

Appl. No. Not Yet Assigned Amdt. dated January 27, 2004 Preliminary Amendment

3	(a) an occlusive agent;
4	(b) an aqueous solvent; and
5	(c) an organic cosolvent;
6	wherein the occlusive agent is present in an amount sufficient to form an
7	occlusive layer on the skin.
1	51. (new) The dispenser according to claim 50, wherein said occlusive agent
2	in said topical mousse composition comprises petrolatum.
1	52. (new) The dispenser according to claim 50, wherein said topical mousse
2	composition further comprises an effective amount of an emulsifier component.
1	53. (new) The dispenser according to claim 50, wherein said topical mousse
2	composition further comprises a water-insoluble pharmaceutically active ingredient.
1	54. (new) The topical mousse composition according to claim 50, wherein
2	said water-insoluble pharmaceutically active ingredient is selected form the group consisting of
3	an analgesic, an antifungal, an antibacterial, an anesthetic, an antiviral, an antipruritic, an
4	antihistamine, a xanthine, a sex hormone, an anti-inflammatory, and a corticosteroid.
1	55. (new) The topical mousse composition according to claim 54, wherein
2	said water-insoluble pharmaceutically active ingredient is an anti-inflammatory.
